

The DYNAMIK Sports Wall Padding are a tailor-made solution to provide maximum safety for players within mutli-sports facility.

The padding is made to measure, and provides cover for walling, columns, fire exits, or any door reveals to help protect users from injury.

Not all sports halls have a sufficient run-off to allow users to perform to their optimum level without the potential for injury, therefore, protection padding can provide the ideal solution.

## Benefits

The panels are quick and easily installed into any venue. As this is a bespoke product DYNAMIK provide a hassle-free installation service, please ask for further information.

Vinyls are colour fast, UV stable and have a high resistance to prolonged impacts.

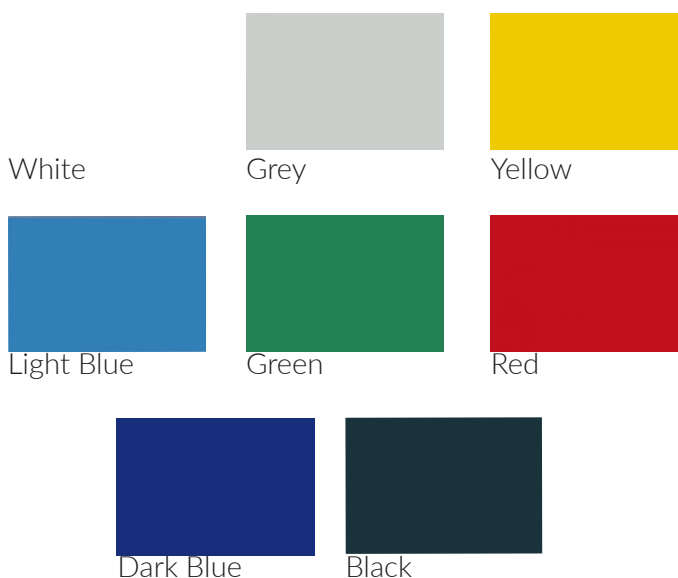

Fabrics used are CRIB 5 rated as standard and only Phthalate, Chromate and Latex free materials are used.
